

Raghad Ghazi Almatrafi

Computer Science Student | Data Analytics & IT Internship Candidate

Makkah, KSA | +966 55 626 2515 | raghadalmatrfy2006@gmail.com | [linkedin.com/in/raghad-almatrfy-3ab180363](https://www.linkedin.com/in/raghad-almatrfy-3ab180363) | github.com/RaghadAlmatrfy

PROFESSIONAL SUMMARY

Computer Science student at Umm Al-Qura University (GPA 3.55/4.00) who turns raw data into clear, actionable insights. Hands-on with SQL, Power BI, and Excel for data cleaning, visualization, and KPI dashboards, with a solid foundation in Python and relational database design. Seeking a Data Analytics or IT internship to support data-driven decision-making.

EDUCATION

B.Sc. in Computer Science — Umm Al-Qura University, Makkah

Expected 2028

GPA: 3.55 / 4.00

Relevant Coursework: Intro to Database, Data Structures & Algorithms, Statistics & Probability, Artificial Intelligence, OOP (Java), Software Engineering

TECHNICAL SKILLS

- Data Analysis & BI: Power BI (dashboards, data visualization), Excel (PivotTables, data cleaning), SQL reporting, KPI tracking, data validation
- Databases: MySQL (schema design, joins, subqueries, aggregate functions, stored procedures, views, indexing)
- Programming: Python, Java, C++ | Tools: GitHub, Figma (UI/UX prototyping) | Graphics: OpenGL/GLUT
- Software Engineering: SDLC, requirements analysis (IEEE 830), UML diagrams, architecture design, risk analysis, testing

PROJECTS

Excellence Academy Database — Full MySQL Relational System

July 2026

- Designed a 6-table relational database (3 join tables) for 60 students, 10 teachers, and 10 courses with 1:N and M:N relationships
- Enforced data integrity with 8+ constraints (CHECK, UNIQUE, FOREIGN KEY); automated tasks via a stored procedure and a view
- Implemented indexing to improve query performance — repository: github.com/RaghadAlmatrfy/satr-sql

EyeCare — Relational Database & Data Analysis Project

Introduction to Database Course

- Modeled a normalized schema across 4 linked tables with key constraints for 5 customers, 5 products, and 5 orders; wrote full DDL/DML scripts
- Built a 4-table SQL JOIN for order-history reporting and used GROUP BY/SUM/COUNT to calculate per-customer spending (KPI-style insights)
- Wrote an AVG() subquery to flag above-average orders and created a reusable SQL VIEW for dashboard-ready data extraction

SafeStep — Women's Safety Mobile Application (Team of 4)

Foundations of Software Engineering Course

- Documented 14 requirements (7 functional, 7 non-functional) per IEEE 830 and authored a 15-week, 4-phase project plan
- Designed UML Use Case Diagrams (2 actors, 9 use cases) and Class Diagrams for 6 core classes, plus 8 UI mockup screens
- Conducted risk analysis across 6 categories and ran 4 test cases (75% pass rate), logging 1 formal bug report

Interactive 2D Animated Story

Computer Graphics Course

- Programmed 5 interactive scenes in C++/OpenGL/GLUT with real-time keyboard-controlled switching and BMP texture-mapped backgrounds
- Built a 100-particle rain system and an alpha-blended heart animation, synchronized via a 60 FPS timer loop

Capsule — AR-Enabled Pharmacy App Prototype (Figma, Team of 5)

High School Graduation Project, 2024

- Co-designed a mobile pharmacy app that helps users check if a medicine suits their chronic conditions and compare prices across pharmacies
- Designed UI/UX screens in Figma for medicine search (keywords & images), AR-based medicine recognition, ordering, and payment
- Defined requirements, objectives, and a 6-month project plan; co-authored the research report — prototype: [figma.com/design/Y7AHYf91AVdogZQb4BhiDY/capsule](https://www.figma.com/design/Y7AHYf91AVdogZQb4BhiDY/capsule)

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- SQL 101, SQL 102, SQL 103 and Python (4 levels) — Satr Platform
- Excel Fundamentals & Data Analysis — Hash Plus
- In Progress — Hash Plus: Data Analysis Using Excel, Power BI Fundamentals & Data Analysis, Power BI Data Analysis (Intermediate & Advanced)
- Mawhiba Academic Enrichment Program — Data Science & Artificial Intelligence Unit (75 hours), Umm Al-Qura University (2023)
- Misk Future Path Program — Misk (2022): Data Analysis, AI, Critical Thinking, Project Planning, Effective Communication, Time Management

SOFT SKILLS

Teamwork, Analytical & Critical Thinking, Problem Solving, Attention to Detail, Time Management, Fast Learning
